

## Welcome

**Author :** Andras Tantos

Welcome to the newly re-designed Modular Circuits site. I've finally taken the time to move the content over to a new blog-based system, where I can keep the site more up-to-date, and where most importantly you, dear reader, can comment and help me improve the content as well.

It will take some time to get all the kinks out, so please bear with me and report any issues you may find.

And now that I grabbed your attention, may I direct it to the whole-new 'Articles' section above, where you can find new (and as of now still incomplete) content on [H-bridges](#) and [electro-mechanical systems](#).
